PARTY LEADERSAll Factions Appear Jubilant Over  
Tuesday's Election.

LOOKING FORWARD TO 1912

Republicans and Democrats Agree  
That Balloting Indicates What Is  
Going to Happen in the Presidential  
Contest Next Year, Though They  
Disagree as to the Character of the  
Happening.Washington, Nov. 9.—If there is any  
political leader of any party or fac-  
tion in Washington who is not "greatly  
gratified and encouraged" by the  
results of the elections in the various  
states he must be in hiding. Most of  
the political chieftains are out in the  
open emitting rosy and prophetic re-  
garding events in 1912.The regular Republicans and the  
regular Democrats agree that the bal-  
loting indicates what is going to hap-  
pen in the presidential election next  
year, though they disagree as to the  
character of the happening. The Re-  
publicans are sure the Republican suc-  
cesses mean the re-election of Taft,  
while the Democrats are sure the  
Democratic victories presage their  
capture of the national administration.The progressive Republicans and  
progressive Democrats assert the re-  
sults constitute the most damaging  
blow ever given the boss rule in each  
party and indicate that none but a  
thorough going progressive can be  
elected.The capture of the legislatures in  
New York and New Jersey, the elec-  
tion of a Republican governor of  
Maryland and the return of a Repub-  
lican representative from the Penn-  
sylvania have filled the regular Repub-  
licans with joy.Some of them gleefully call atten-  
tion to the reduction of Foss' plurality  
in Massachusetts and the retention of  
the Loudenslager congressional dis-  
trict in New Jersey as evidence that  
Republican insurgency is on the wane.

Regulars See Turning of Tide.

That the tide has turned is the in-  
terpretation generally given the results  
of the election by the regulars. They  
profess to see in the figures indica-  
tions that the people are tired of the  
policies advocated by both the pro-  
gressive Republicans and the Demo-  
crats and are returning to conserva-  
tive views. They say a reaction has  
set in which will carry Mr. Taft to re-  
nomination and re-election.The Democratic leaders are elated  
by the re-election of Governor Foss,  
by the Democrats' gain in Ohio, in-  
cluding the mayoralty of Cincinnati,  
the president's home town, by the de-  
feat of Senator Penrose's mayoralty  
candidate in Philadelphia, by the elec-  
tion of a governor of Kentucky and  
the capture of the Second congress-  
ional district of Kansas.The progressives say the re-election  
of Foss is a repudiation of the Massa-  
chusetts machine and of standpat pol-  
icies and that the defeat of the Gor-  
man machine in Maryland and of the  
Penrose machine in Philadelphia is a  
progressive triumph. They assert that  
O. B. Albee, Republican, defeated a  
Democrat in the Fourteenth Pennsylv-  
ania district because he is a progres-  
sive and that U. S. Guyer was beaten  
by a Democrat in the Second Kansas  
district because he is not a progres-  
sive.Much satisfaction is also obtained  
by the progressives from the Chicago  
dispatches disclosing that the Lorimer  
bipartisan alliance with the Demo-  
cratic machine was unable to "put  
over" its judicial candidates.

## CLAIM NEW MEXICO BY 4,700

Democrats Say They Have Captured  
Entire Ticket.Albuquerque, N. M., Nov. 9.—On the  
face of complete returns from about  
one-half of the election districts of the  
state and estimates on the remainder  
Democrats claim the election of Mc-  
Donald for governor and the entire  
Democratic state and congressional  
ticket by majorities estimated at 4,700.The Republicans estimate that to  
concede their defeat, but quote no fig-  
ures in support of their contentions.It is not believed that the remote  
precincts still to be heard from will  
materially change the result. Every  
Republican county heard from thus  
far shows reduced majorities for the  
Republican ticket, while the Demo-  
cratic counties all give increased ma-  
jorities.Progressive Republicans will hold  
the balance of power in the state leg-  
islature, which will elect two United  
States senators, according to almost  
complete returns on the election of  
members of the legislature.

## BALFOUR RESIGNS AS LEADER

Divergency of Views Given as the  
Main Reason.London, Nov. 9.—A. J. Balfour has  
resigned the leadership of the opposi-  
tion. There had been rumors in the  
lobby of the house of commons that  
Mr. Balfour had decided to retire from  
his position as chief of the Unionist  
party in consequence of the divergency  
of views regarding the efficacy of his  
leadership.AGREES SCHEME

Trust Dissolution Plan.

INDEPENDENTS MAY APPEAL

Counsel for Several Opposing Con-  
cerns Announces Case Will Probably  
Go to the United States Supreme  
Court—Judges Deny Attorney Gen-  
eral Wickersham's Plea for Right to  
Apply for Further Relief Within  
Five Years.New York, Nov. 9.—The litigation  
which the federal government began  
four and a half years ago to break up  
the American Tobacco company as a  
monopoly in restraint of trade ap-  
proached the stage of completion by  
judicial acceptance, with a few mod-  
ifications, of the much discussed plan  
that the tobacco company itself drew  
up for the dissolution of the combina-  
tion in accordance with a mandate of  
the United States supreme court.The decision of approval was filed  
by Judge Lacombe of the United  
States circuit court. Supplementary  
opinions were filed by Judges Cox  
and Noyes, concurring generally with  
Judge Lacombe.No one of the judges regarded the  
plan as perfect, but all declared the  
ideal was beyond attainment and that  
as a practical, substantial compliance  
with the law the plan, as slightly  
modified, appeared the best attainable.

Judges Believe Plan Honest.

Each judge asserted his belief that  
the plan is honest and that there is  
no question of the good faith of its  
authors. Judge Ward, the fourth mem-  
ber of the court, who attended some  
of the conferences and sat with his  
associates at the open hearing, filed  
no opinion.The features of the opinions of  
Judges Lacombe, Noyes and Cox are  
that the dissolution should be con-  
summated without delay; that the re-  
quest of Attorney General Wicker-  
sham for the reservation by the gov-  
ernment of right to apply for further  
or other relief within a period of five  
years, if the plan did not result in  
harmony with law, is declared not to  
be within the authority of the court  
to grant; that the court does enjoin  
for a period of three years the twen-  
ty-nine individual defendants in the  
suit from acquiring any additional  
holdings in the companies into which  
the trust is split; and that the appli-  
cation made by Independents for dis-  
solution of the United Cigar Stores  
company lay outside the authority of  
the court, but that did not preclude  
any independent action later against  
the Cigar Stores company as an in-  
dividual corporation.

Case May Be Appealed.

The announcement of the court's ac-  
tion was followed almost immediately  
by the announcement of counsel for  
several of the opposing independent  
tobacco interests that an attempt un-  
doubtedly would be made to have the  
decision reviewed by the United States  
supreme court.Judge Noyes drew a general moral  
from the case. In conclusion he said:  
"The extent to which it has been  
necessary to tear apart this combina-  
tion and force it into new forms  
with the attendant burdens ought to  
demonstrate that the federal anti-trust  
statute is a drastic statute which ac-  
complishes effective results, which, so  
long as it stands on the statute books,  
must be obeyed and which cannot be  
disobeyed without incurring farreaching  
penalties. And, on the other hand,  
the successful reconstruction of this  
organization should teach that the ef-  
fect of enforcing this statute against  
industrial combinations is not to de-  
stroy but to recreate in accordance  
with the conditions which congress  
has declared shall exist among the  
people of the United States."

EXPECT JURY BY CHRISTMAS

Five Weeks of McNamara Trial Re-  
sults in Three Jurors.Los Angeles, Cal., Nov. 9.—Three  
sworn jurors and a talesman passed  
for cause were the showing in the Mc-  
Namara murder trial at the end of  
five weeks of court.Another venireman had been accept-  
ed by the defense as to cause and  
counsel began to hope for a full jury  
box by Christmas to try James B. Mc-  
Namara for the alleged murder of  
Charles J. Haggerty, a machinist  
killed in the Los Angeles Times ex-  
plosion a year ago.Another venire of forty men has  
been summoned, making 285 men thus  
far drawn for jury service.

Socialists Beat Democrats.

Hazzell, Republican, formerly pastor  
of the First Congregational church,  
was elected mayor of Everett. The  
Socialist candidate for mayor will fin-  
ish second, the Democrats being  
crowded to last place.

## UNDERWOOD IS GRATIFIED

Says Democrats Won Wherever Tariff  
Was Paramount Issue.Birmingham, Ala., Nov. 9.—Con-  
gressman Oscar W. Underwood, re-  
garding Tuesday's elections, said:"It is very gratifying to know that  
the most decisive Democratic victories  
were achieved in Kentucky and Mas-  
sachusetts, where the tariff was made  
the paramount issue. The results in  
New York, Maryland and New Jersey  
were caused by local issues. I think  
the election returns show the Demo-  
cratic party to be in a stronger posi-  
tion than ever."MAYOR'S WIFE SAYS  
"WE" WILL RUN CITYBetter Half of New Quaker City  
Official a Suffragette.Philadelphia, Nov. 9.—Mrs. Rudolph  
Blankenberg, wife of the political re-  
former who was elected mayor of  
Philadelphia, announced that she in-  
tends to put some of her theories into  
practice during the term of her hus-  
band as chief executive of the city.  
Mrs. Blankenberg is a suffragette in  
the most ardent sense of the term. In  
speaking of her husband's election she  
said:"We propose to give the city a good  
administration and now I will have  
the opportunity of putting some of my  
theories into actual practice. I have  
pronounced views on just how a city  
should be managed and have wanted  
the opportunity for years to test my  
ideas. With the election of Mr. Blan-  
kenberg I will have my opportunity  
and I am sure we will make a splen-  
did team to run the city."Mayor Elect Blankenberg heard the  
statement of his wife, but refused to  
make any comment on her intimation  
that she would be the real mayor.

## HARMON AND FOSS TO FRONT

Election Results Increase Their Presi-  
dential Nomination Chances.Washington, Nov. 9.—The result of  
the election as it may affect individual  
candidates for the Democratic presi-  
dential nomination will now be the  
subject of much comment. Governor  
Harmon seems to have gained prestige  
and Governor Wilson to have lost  
prestige. The ultimate intent of the  
gain on the one hand and of the loss  
on the other cannot be figured just  
yet.There are men in this city who be-  
lieve that Tuesday's results will insure  
the nomination of Harmon and that  
his chief competitor for the nomina-  
tion will be Governor Foss of Massa-  
chusetts. This, however, is a long  
range prediction and at present rests  
on nothing substantial.

Preparing Him.

"You're going to marry sister, ain't  
you?" her little brother inquired.  
The young man blushed. "I—I don't  
know," he replied."That's funny," said the terrible in-  
fant. "Pa has looked you up in the  
rate books, ma has found out all about  
your grandfathers, and sister has be-  
gun her shopping." Gimme a nickel,  
won't you?—Cleveland Plain Dealer.

## FIRE LOSSES ARE LOWER

Records Show Total of \$192,933,800  
Since Jan. 1.New York, Nov. 9.—The losses by  
fire in the United States and Can-  
ada during October, as compiled from the  
carefully kept records of the Journal  
of Commerce and Commercial Bulle-  
tin, aggregate \$13,945,000, as compared  
with \$37,183,300 for the same month  
of 1910, when the forest fires were  
largely responsible for the immense  
total. The fire losses since Jan. 1,  
this year reach a total of \$192,933,800,  
as against \$196,535,650 charged against  
the first ten months of last year. Dur-  
ing October this year there were 254  
fires which caused a loss in each in-  
stance of \$10,000 or over.GOVERNMENT TO  
OWN RAILROADThat Is Secretary Fisher's  
Plan in Alaska.

ALREADY OWNS PANAMA ROAD

Root's Opposition to Knox's Arbitration  
Treaties—Horse Meat as "Proper"  
Food—Governor-Senator Hoke Smith  
Mentioned as a Presidential Possi-  
bility—Kitchen Would Be Senator.

By ARTHUR W. DUNN.

Washington, Nov. 9.—[Special.]—The  
experiment of government ownership  
of public utilities may be tried out in  
Alaska. It is understood that Sec-  
retary Fisher has become convinced that  
the only way monopoly can be pre-  
vented in that territory is to have the  
government own and operate the rail-  
roads in a number of places, so that  
all companies and individuals shall  
have a fair deal in freight and ship-  
ments.If the secretary recommends any  
thing of the kind he will have a  
mighty hard time in getting it through  
congress, for congress will hesitate a  
long time before it will commit itself  
to government ownership of public  
utilities, although it has already done  
so in constructing the Panama canal.  
But that is different from building and  
operating railroads in Alaska.Yet it is hard to see how the terri-  
tory can be developed without the gov-  
ernment taking hold. Grants will not  
be made to the big corporations which  
have tried to get control, and there is  
a crying need that either corporations  
should be given authority or that the  
government should take hold of the  
matter itself.

Knox and Root.

Elhu Root refused to remain as sec-  
retary of state in the Taft cabinet.  
Philander Knox gave up a seat in the  
senate to become secretary of state.  
Knox negotiated a treaty of arbitra-  
tion—two, in fact—and when the sen-  
ate did not take kindly to them Root  
offered a resolution as a sort of a de-  
claration that the Monroe doctrine and  
other purely American questions were  
not to go to arbitration. And now it  
is said that Knox is not nearly so anx-  
ious about the ratification of the treaty  
as formerly, because the Root  
proposition is likely to be adopted.

Wiley and Horse Meat.

Dr. Wiley is a diplomat—in his fine  
drawn word distinctions. His pure  
food inspectors have for some time  
been on the trail of packers of dis-  
eased horseflesh for human consump-  
tion. The attorney for the offending  
packers came to Washington recently  
to convince the food expert that such  
horse meat was the right and proper  
sort of food. Dr. Wiley was asked af-  
terward about his interview with the  
attorney. He said:"The attorney assured me that the  
horse meat in question was prepared  
under the most cleanly conditions, was  
wholesome and met every requirement  
of the laws of the countries to which  
it was shipped." His questioner, know-  
ing the thorough work upon which Dr.  
Wiley had based his charges to the  
contrary of these statements, asked  
Wiley if he believed them. "I said he  
'assured' me," naively replied the doc-  
tor. "Don't you quote me as saying I  
did not believe him."

Keeps Jim Lloyd Busy.

Congressman Jim Lloyd has consid-  
erable more to do, aside from his work  
as chairman of the Democratic con-  
gressional committee, than has been  
the case for years. He is chairman of  
the house committee on accounts. Every  
typewriter, every desk, every as-  
sistant clerk that is contracted for by  
the house of representatives must re-  
ceive his approval, and, moreover, he  
must arbitrate patronage disputes be-  
tween newly powerful Democrats as to  
appointments of clerks in the capitol.  
These sundry duties keep the commit-  
tee on accounts busy, its clerk says,  
365 days in the year.

Only One More.

Mr. Bryan named forty or more men  
considered available for the Democra-  
tic nomination for president. He did  
not include either Governor Harmon  
or Oscar Underwood among the num-  
ber. I do not recollect if Governor  
Hoke Smith of Georgia was on the  
list; but, even so, it has not prevented  
Hoke from being boomed by his friends  
in the Cracker State. Smith is a sen-  
ator elect, but still governor, and be-  
fore he has an opportunity to take his  
seat his admirers propose to give him  
a higher place. Well, that only makes  
one more to choose from.

Interesting in North Carolina.

Only by an occasional rumor does it  
appear that things are moving in  
North Carolina. Senator Simmons  
wants to be re-elected. Claude Kitchen,  
brother of Governor Kitchen, wants  
Simmons' seat, and half a dozen other  
Democrats who have never received  
very much recognition also want to  
come to the senate.The campaign is ahead of the sched-  
ule several months, but down south  
they never delay these matters. A  
campaign begins when some fellow  
thinks he would like to have an office.  
And, like every other senatorial cam-  
paign in a southern state where the  
contest is sharp, there is no mingling  
of words or expression of opinion.  
Those candidates know exactly what  
their opponents think of them.

Both to Blame.

John—You are always busy when I  
come in. Charles—Well, you always  
come in when I'm busy.

## TAFT STUDIES THE VACANCY

President Considers Several Can-  
didates for Harlan's Place.Washington, Nov. 9.—President Taft  
is giving serious thought to the ap-  
pointment of a successor to Justice  
Harlan.He is said to be considering seri-  
ously candidates from the Third,  
Fourth and Seventh circuits, which  
have no representation on the su-  
preme court bench.For this reason it is believed that  
Judge Joseph Buffington of the Third  
district has good prospects. Judge  
Buffington is one of the men who, it  
is expected, will try the steel trust.TAFT SHARES HONORS  
WITH MAJOR BUTTPresident and Aide Guests at  
Louisville Banquet.Louisville, Nov. 9.—Coming into  
Kentucky after the state was over-  
whelmingly returned to the Demo-  
cratic ranks President Taft was greet-  
ed apparently the same as if results  
of Tuesday's election had been the  
reverse.At Frankfort, the capital, the presi-  
dent dedicated a statue to Abraham  
Lincoln and in Louisville he made a  
brief talk on peace. Later he was en-  
tertained by the Louisville Press club  
at a banquet.The banquet was unique in presi-  
dential visits in that Mr. Taft divid-  
ed honors with his military aide,  
Major Archibald Butt. Major Butt  
formerly was a Louisville newspaper  
man and, as the president himself  
saw service as a reporter in Cincin-  
nati, the affair was given on the basis  
of one newspaper man to another.Henry Watterson, who was one of  
the speakers, suggested every one  
stop calling him Mr. President or even  
Mr. Taft and substitute just "Bill."  
It was adopted to some extent.

## WILSON ISSUES STATEMENT

Hopes Republicans in New Jersey Will  
Redeem Election Pledges.Trenton, N. J., Nov. 9.—Governor  
Wilson issued the following statement  
regarding the election:"I deeply regret, of course, the loss  
of the house by my party and the  
failure to gain the senate, but I look  
forward with great interest to the next  
session as affording an opportunity to  
the Republican leaders to fulfill the  
very explicit pledges of their platform.  
"If they do that the session should  
be productive of legislation of consid-  
erable importance and benefit to the  
state and I shall earnestly hope for  
their co-operation in reforms planned  
in the interest of the whole state  
which we are all sworn to serve."

in the heart of Duluth, which the In-  
dian heirs allege was ceded him by the  
government fifty years ago. Chief  
Buffalo's heirs reside at Red Cliff,  
Odanah and Bayfield.The property extends from the  
Spalding hotel east and north and is  
valued at millions of dollars.Announcement of the proposed ac-  
tion comes from Ashland, Wis. Attor-

## ASK VIEWS ON SHERMAN LAW

C. A. Severance of St. Paul on Com-  
mittee to Classify Answers.New York, Nov. 9.—President Seth  
Low of the National Civic federation  
started an extensive plan by which  
the federation proposes to get the  
views of representative men concern-  
ing remedial measures to deal with  
the business situation as it relates to  
the Sherman anti-trust act.A series of questions was addressed  
to some 20,000 representative men.  
The answers will be classified by a  
committee which includes President  
Low, William Dudley Foulke of Indi-  
ana, Frederick N. Judson of St. Louis,  
Cordenio A. Severance of St. Paul  
and Edgar A. Bancroft of Chicago.

RESULTS PLEASE  
PARTY LEADERSAll Factions Appear Jubilant Over  
Tuesday's Election.

LOOKING FORWARD TO 1912

Republicans and Democrats Agree That Balloting Indicates What Is Going to Happen in the Presidential Contest Next Year, Though They Disagree as to the Character of the Happening.

Washington, Nov. 9.—If there is any political leader of any party or faction in Washington who is not "greatly gratified and encouraged" by the results of the elections in the various states he must be in hiding. Most of the political chieftains are out in the open emitting interviews of a jubilant tone and roasting prophecies regarding events in 1912.

The regular Republicans and the regular Democrats agree that the balloting indicates what is going to happen in the presidential election next year, though they disagree as to the character of the happening. The Republicans are sure the Republican successes mean the re-election of Taft, while the Democrats are sure the Democratic victories presage their capture of the national administration.

The progressive Republicans and progressive Democrats assert the results constitute the most damaging blow ever given the boss rule in each party and indicate that none but a thorough going progressive can be elected.

The capture of the legislatures in New York and New Jersey, the election of a Republican governor of Maryland and the return of a Republican representative from the Fourteenth congressional district of Pennsylvania have filled the regular Republicans with joy.

Some of them gleefully call attention to the reduction of Foss' plurality in Massachusetts and the retention of the Loudenslager congressional district in New Jersey as evidence that Republican insurgency is on the wane.

Regulars See Turning of Tide.

That the tide has turned is the interpretation generally given the results of the election by the regulars. They profess to see in the figures indications that the people are tired of the policies advocated by both the progressive Republicans and the Democrats and are returning to conservative views. They say a reaction has set in which will carry Mr. Taft to re-election and re-election.

The Democratic leaders are elated by the re-election of Governor Foss, by the Democrats' gain in Ohio, including the mayorality of Cincinnati, the president's home town, by the defeat of Senator Penrose's majority candidate in Philadelphia, by the election of a governor of Kentucky and the capture of the Second congressional district of Kansas.

The progressives say the re-election of Foss is a repudiation of the Massachusetts machine and of standpat policies and that the defeat of the Gorman machine in Maryland and of the Penrose machine in Philadelphia is a progressive triumph. They assert that O. B. Albee, Republican, defeated a Democrat in the Fourteenth Pennsylvania district because he is a progressive and that U. S. Guyer was beaten by a Democrat in the Second Kansas district because he is not a progressive.

Much satisfaction is also obtained by the progressives from the Chicago dispatches disclosing that the Lorimer bipartisan alliance with the Democratic machine was unable to "put over" its judicial candidates.

## CLAIM NEW MEXICO BY 4,700

Democrats Say They Have Captured  
Entire Ticket.

Albuquerque, N. M., Nov. 9.—On the face of complete returns from about one-half of the election districts of the state and estimates on the remainder Democrats claim the election of McDonald for governor and the entire Democratic state and congressional ticket by majorities estimated at 4,700.

The Republican managers decline to concede their defeat, but quote no figures in support of their contentions.

It is not believed that the remote precincts still to be heard from will materially change the result. Every Republican county heard from thus far shows reduced majorities for the Republican ticket while the Democratic counties all give increased majorities.

Progressive Republicans will hold the balance of power in the state legislature, which will elect two United States senators, according to almost complete returns on the election of members of the legislature.

## BALFOUR RESIGNS AS LEADER

Divergency of Views Given as the  
Main Reason.

London, Nov. 9.—A. J. Balfour has resigned the leadership of the opposition. There had been rumors in the lobby of the house of commons that Mr. Balfour had decided to retire from his position as chief of the Unionist party in consequence of the divergency of views regarding the efficacy of his leadership.

Counsel for Several Opposing Concerns Announces Case Will Probably Go to the United States Supreme Court—Judges Deny Attorney General Wickersham's Plea for Right to Apply for Further Relief Within Five Years.

New York, Nov. 9.—The litigation which the federal government began four and a half years ago to break up the American Tobacco company as a monopoly in restraint of trade approached the stage of completion by judicial acceptance, with a few modifications, of the much discussed plan that the tobacco company itself drew up for the dissolution of the combination in accordance with a mandate of the United States supreme court.

The decision of approval was filed by Judge Lacombe of the United States circuit court. Supplementary opinions were filed by Judges Cox and Noyes, concurring generally with Judge Lacombe.

No one of the judges regarded the plan as perfect, but all declared the ideal was beyond attainment and that as a practical, substantial compliance with the law the plan, as slightly modified, appeared the best attainable.

Judges Believe Plan Honest.

Each judge asserted his belief that the plan is honest and that there is no question of the good faith of its authors. Judge Ward, the fourth member of the court, who attended some of the conferences and sat with his associates at the open hearing, filed no opinion.

The features of the opinions of Judges Lacombe, Noyes and Cox are that the dissolution should be consummated without delay; that the request of Attorney General Wickersham for the reservation by the government of right to apply for further or other relief within a period of five years, if the plan did not result in harmony with law, is declared not to be within the authority of the court to grant; that the court does enjoin for a period of three years the twenty-nine individual defendants in the suit from acquiring any additional holdings in the companies into which the trust is split; and that the application made by independent for dissolution of the United Cigar Stores company lay outside the authority of the court, but that did not preclude any independent action later against the Cigar Stores company as an individual corporation.

Case May Be Appealed.

The announcement of the court's action was followed almost immediately by the announcement of counsel for several of the opposing independent tobacco interests that an attempt undoubtedly would be made to have the decision reviewed by the United States supreme court.

Judge Noyes drew a general moral from the case. In conclusion he said: "The extent to which it has been necessary to tear apart this combination and force it into new forms with the attendant burdens ought to demonstrate that the federal anti-trust statute is a drastic statute which accomplishes effective results, which, so long as it stands on the statute books, must be obeyed and which cannot be disobeyed without incurring far-reaching penalties. And, on the other hand, the successful reconstruction of this organization should teach that the effect of enforcing this statute against industrial combinations is not to destroy but to recreate in accordance with the conditions which congress has declared shall exist among the people of the United States."

## EXPECT JURY BY CHRISTMAS

Five Weeks of McNamara Trial Re-  
sults in Three Jurors.

Los Angeles, Cal., Nov. 9.—Three sworn jurors and a talesman passed for cause were the showing in the McNamara murder trial at the end of five weeks of court.

Another venireman had been accepted by the defense as to cause and counsel began to hope for a full jury box by Christmas to try James B. McNamara for the alleged murder of Charles J. Haggerty, a machinist killed in the Los Angeles Times explosion a year ago.

Another venire of forty men has been summoned, making 285 men thus far drawn for jury service.

## UNDERWOOD IS GRATIFIED

Says Democrats Won Where Tariff  
Was Paramount Issue.

Birmingham, Ala., Nov. 9.—Congressman Oscar W. Underwood, regarding Tuesday's elections, said:

"It is very gratifying to know that the most decisive Democratic victories were achieved in Kentucky and Massachusetts, where the tariff was made the paramount issue. The results in New York, Maryland and New Jersey were caused by local issues. I think the election returns show the Democratic party to be in a stronger position than ever."

Official a Suffragette.

Philadelphia, Nov. 9.—Mrs. Rudolph Blankenberg, wife of the political reformer who was elected mayor of Philadelphia, announced that she intends to put some of her theories into practice during the term of her husband as chief executive of the city. Mrs. Blankenberg is a suffragette in the most ardent sense of the term. In speaking of her husband's election she said:

"We propose to give the city a good administration and now I will have the opportunity of putting some of my theories into actual practice. I have pronounced views on just how a city should be managed and have wanted the opportunity for years to test my ideas. With the election of Mr. Blankenberg I will have my opportunity and I am sure we will make a splendid team to run the city."

Mayor Elect Blankenberg heard the statement of his wife, but refused to make any comment on her intimation that she would be the real mayor.

## HARMON AND FOSS TO FRONT

Election Results Increase Their Presi-  
dential Nomination Chances.

Washington, Nov. 9.—The result of the election as it may affect individual candidates for the Democratic presidential nomination will now be the subject of much comment. Governor Harmon seems to have gained prestige and Governor Wilson to have lost prestige. The ultimate intent of the gain on the one hand and of the loss on the other cannot be figured just yet.

There are men in this city who believe that Tuesday's results will insure the nomination of Harmon and that his chief competitor for the nomination will be Governor Foss of Massachusetts. This, however, is a long range prediction and at present rests on nothing substantial.

Preparing Him.  
"You're going to marry sister, ain't you?" her little brother inquired.

The young man blushed. "I—I don't know," he replied.

"That's funny," said the terrible infant. "Pa has looked you up in the rate books, ma has found out all about your grandfathers, and sister has begun her shopping. Gimme a nickel, won't you?"—Cleveland Plain Dealer.

## FIRE LOSSES ARE LOWER

Records Show Total of \$192,933,800  
Since Jan. 1.

New York, Nov. 9.—The losses by fire in the United States and Canada during October, as compiled from the carefully kept records of the Journal of Commerce and Commercial Bulletin, aggregate \$13,945,000, as compared with \$37,188,300 for the same month of 1910, when the forest fires were largely responsible for the immense total. The fire losses since Jan. 1 this year reach a total of \$192,933,800, as against \$196,535,650 charged against the first ten months of last year. During October this year there were 254 fires which caused a loss in each instance of \$10,000 or over.

GOVERNMENT TO  
OWN RAILROADThat Is Secretary Fisher's  
Plan in Alaska.

ALREADY OWNS PANAMA ROAD

Root's Opposition to Knox's Arbitration Treaties—Horse Meat as "Proper" Food—Governor-Senator Hoke Smith Mentioned as a Presidential Possibility—Kitchen Would Be Senator.

By ARTHUR W. DUNN.

Washington, Nov. 9.—[Special.]—The experiment of government ownership of public utilities may be tried out in Alaska. It is understood that Secretary Fisher has become convinced that the only way monopoly can be prevented in that territory is to have the government own and operate the railroads in a number of places, so that all companies and individuals shall have a fair deal in freight and shipments.

If the secretary recommends any thing of the kind he will have a mighty hard time in getting it through congress, for congress will hesitate a long time before it will commit itself to government ownership of public utilities, although it has already done so in constructing the Panama canal. But that is different from building and operating railroads in Alaska.

Yet it is hard to see how the territory can be developed without the government taking hold. Grants will not be made to the big corporations which have tried to get control, and there is a crying need that either corporations should be given authority or that the government should take hold of the matter itself.

Knox and Root.

Elith Root refused to remain as secretary of state in the Taft cabinet. Philander Knox gave up a seat in the senate to become secretary of state. Knox negotiated a treaty of arbitration—two, in fact—and when the senate did not take kindly to them Root offered a resolution as a sort of a declaration that the Monroe doctrine and other purely American questions were not to go to arbitration. And now it is said that Knox is not nearly so anxious about the ratification of the treaties as formerly, because the Root proposition is likely to be adopted.

Wiley and Horse Meat.

Dr. Wiley is a diplomat—in his fine drawn word distinctions. His pure food inspectors have for some time been on the trail of packers of diseased horseflesh for human consumption. The attorney for the offending packers came to Washington recently to convince the food expert that such horse meat was the right and proper sort of food. Dr. Wiley was asked afterward about his interview with the attorney. He said:

"The attorney assured me that the horse meat in question was prepared under the most cleanly conditions, was wholesome and met every requirement of the laws of the countries to which it was shipped." His questioner, knowing the thorough work upon which Dr. Wiley had based his charges to the contrary of these statements, asked Wiley if he believed them. "I said he 'assured' me," naively replied the doctor. "Don't you quote me as saying I did not believe him."

Keeps Jim Lloyd Busy.

Congressman Jim Lloyd has considerable more to do, aside from his work as chairman of the Democratic congressional committee, than has been the case for years. He is chairman of the house committee on accounts. Every typewriter, every desk, every assistant clerk that is contracted for by the house of representatives must receive his approval, and, moreover, he must arbitrate patronage disputes between newly powerful Democrats as to appointments of clerks in the capitol. These sundry duties keep the committee on accounts busy, its clerk says, 365 days in the year.

Only One More.

Mr. Bryan named forty or more men considered available for the Democratic nomination for president. He did not include either Governor Harmon or Oscar Underwood among the number. I do not recollect if Governor Hoke Smith of Georgia was on the list; but, even so, it has not prevented Hoke from being boomed by his friends in the Cracker State. Smith is a senator elect, but still governor, and before he has an opportunity to take his seat his admirers propose to give him a higher place to choose from.

Interesting in North Carolina.  
Only by an occasional rumor does it appear that things are moving in North Carolina. Senator Simmons wants to be re-elected. Claude Kitchen, brother of Governor Kitchen, wants Simmons' seat, and half a dozen other Democrats who have never received very much recognition also want to come to the senate.

The campaign is ahead of the schedule several months, but down south they never delay these matters. A campaign begins when some fellow thinks he would like to have an office. And, like every other senatorial campaign in a southern state where the contest is sharp, there is no mingling of words or expression of opinion. Those candidates know exactly what their opponents think of them.

Both to Blame.

John—You are always busy when I come in. Charles—Well, you always come in when I'm busy.

JOSEPH BUFFINGTON.

Chance of Succeeding Harlan.

## TAFT STUDIES THE VACANCY

President Considers Several Can-  
didates for Harlan's Place.

Washington, Nov. 9.—President Taft is giving serious thought to the appointment of a successor to Justice Harlan.

He is said to be considering seriously candidates from the Third, Fourth and Seventh circuits, which have no representation on the supreme court bench.

For this reason it is believed that Judge Joseph Buffington of the Third district has good prospects. Judge Buffington is one of the men who, it is expected, will try the steel trust.

TAFT SHARES HONORS  
WITH MAJOR BUTTPresident and Aide Guests at  
Louisville Banquet.

Louisville, Nov. 9.—Coming into Kentucky after the state was overwhelmingly returned to the Democratic ranks President Taft was greeted apparently the same as if results of Tuesday's election had been the reverse.

At Frankfort, the capital, the president dedicated a statue to Abraham Lincoln and in Louisville he made a brief talk on peace. Later he was entertained by the Louisville Press club at a banquet.

The banquet was unique in presidential visits in that Mr. Taft divided honors with his military aide, Major Archibald Butt. Major Butt formerly was a Louisville newspaper man and, as the president himself saw service as a reporter in Cincinnati, the affair was given on the basis of one newspaper man to another.

Henry Watterson, who was one of the speakers, suggested every one stop calling him Mr. President or even Mr. Taft and substitute just "Bill." It was adopted to some extent.

## WILSON ISSUES STATEMENT

Hopes Republicans in New Jersey Will  
Redeem Election Pledges.

Trenton, N. J., Nov. 9.—Governor Wilson issued the following statement regarding the election:

"I deeply regret, of course, the loss of the house by my party and the failure to gain the senate, but I look forward with great interest to the next session as affording an opportunity to the Republican leaders to fulfill the very explicit pledges of their platform. 'If they do that the session should be productive of legislation of considerable importance and benefit to the state and I shall earnestly hope for their co-operation in reforms planned in the interest of the whole state which we are all sworn to serve.'"

## DESIRE PORTION OF DULUTH

Indian Heirs Will Sue to Recover Val-  
uable Property.

Duluth, Nov. 9.—Suits are to be brought by descendants of Chief Buffalo to recover property a mile square in the heart of Duluth, which the Indian heirs allege was ceded him by the government fifty years ago. Chief Buffalo's heirs reside at Red Cliff, Odanah and Bayfield.

The property extends from the Spaulding hotel east and north and is valued at millions of dollars.

Announcement of the proposed action comes from Ashland, Wis. Attorney Z. I. Dahby of Washington, D. C., has been investigating the rights of the Indians of the reservation and, it is said, he will handle the action.

Salt Lake City, Nov. 9.—Election results in many Utah cities and towns indicate wide gains by both Democrats and Socialists.

The Socialists' gains were made largely in the mining camps, Eureka, Murray, Mammoth and Stockton electing Socialist officers. They also gained councilmen in several other towns, including Bingham.

Washington, Nov. 9.—The great mechanical problems connected with the construction of the Panama canal, which is to be opened in January, 1915, are outlined in the annual report of the isthmian canal commission just made public.

The record of the year's achievements in the gigantic task that is being worked out by the Washington government, under congressional appropriations that so far aggregate \$293,561,486, includes:

Completion of almost three-quarters of Culebra cut. Total excavation of material from Culebra during year, 16,221,672 cubic yards at average cost of 58.8 cents per yard.

Big plans laid for canal terminals, including storage of fuel, fresh water and other supplies, repair facilities, etc.; Pacific terminal to have dry dock, storehouse and coaling stations.

Practical completion of plans of all locks.

Elaborate scheme for lighting the canal.

Safeguarding of the canal against big landslides.

## ASK VIEWS ON SHERMAN LAW

New York, Nov. 9.—President Seth Low of the National Civic federation started an extensive plan by which the federation proposes to get the views of representative men concerning remedial measures to deal with the business situation as it relates to the Sherman anti-trust act.

A series of questions was addressed to some 20,000 representative men. The answers will be classified by a committee which includes President Low, William Dudley Foulke of Indiana, Frederick N. Judson of St. Louis, Cordenio A. Severance of St. Paul and Edgar A. Bancroft of Chicago.

land by 3,000.

Baltimore, Nov. 9.—With complete unofficial returns from Baltimore and all parts of the state heard from the election of Phillips Lee Goldsborough, Republican candidate for governor, over State Senator Arthur Poe Gorman, Democrat, was established.

Goldsborough's plurality, it is estimated, will be between 2,500 and 3,000. Both houses of the legislature will be Democratic by safe majorities.

The constitutional amendment disfranchising the negro was decisively defeated.

## PUBLISHER IN THE TOILS

Magazine Head Arrested for Alleged

New York, Nov. 9.—Frank J. Orr, president of the Columbian Sterling Publishing company, publishers of the Hampton-Columbian Magazine, and J. F. B. Atkin, a lawyer connected with the company, were arrested by post-office inspectors, charged with using the mails to defraud investors in selling stock in the publishing company. They were held in \$15,000 bail each for examination.

The alleged swindle will aggregate about \$2,000,000, or about half the company's capital stock of \$4,000,000, according to Assistant District Attorney Brown.

LOSS REACHES \$50,000,000

Four Hundred Thousand Persons Are Destitute and Hundreds of Half Burned Bodies, Many of Them Being Women and Children, Lie Among the Debris—Imperialists Take a Hand in Looting the City.

Hankow, Nov. 5, via Wuhu, Nov. 9.—The city of Hankow has been destroyed by fire over two-thirds of its extent. The lowest estimate of the loss is \$50,000,000. Four hundred thousand persons are destitute. Hundreds of half burned bodies lie among the ruins. Many of them are the bodies of women and children.

The customs house, the postoffice and the American missions have been spared. The city has been looted, the imperialists taking a hand in the pillage. Imperialist officers tried to check this work and executed a number of soldiers.

Refugees were deprived of their loot on entering the British concessions, cartloads of valuable furs, silks and jewelry being seized. It is suggested that the Red Cross receive the proceeds.

Friday afternoon the consuls appealed to the imperialists to cease burning the town. A proclamation, which was issued immediately, declared that the rebels were responsible for the fires and ordered that these be checked. The following day new fires started in various quarters.

The David Hill memorial school for the blind, connected with the Wesleyan mission, was looted, while, in contrast, all the mission property in Wuchang, which is held by the revolutionaries, has been protected.

Foreigners who have not had an opportunity of witnessing the engagements, except at a distance, are hearing horrifying stories of brutality. The imperialists have hanged men and, failing to strangle them, have tortured them to death, prodded them with bayonets or crushed them to death with stones.

The outrages against women cannot be told. Red Cross bearers have been killed or wounded. Soldiers on both sides have slaughtered their wounded enemies.

## SEIZE FORTS AT NANKING

Two Thousand Imperialists Join In-

Shanghai, Nov. 9.—Latest advices received here say that the attempt of the insurgents to seize Nanking was only partly successful. They were repulsed at some points, but captured the armory forts behind the city. They lost more than one hundred men killed.

At the south gate 2,000 imperialists joined the revolutionaries on receipt of 300,000 taels (\$200,000).

The Manchu general, Chang Chun, is still holding out. The foreign residents have either left the city or taken refuge in consulates.

## FIRE PREVENTION DAY, NOV. 8

Governor A. O. Eberhart Proclaims Wednesday as Minnesota Fire Prevention Day

## MANY DELEGATES APPOINTED

Fire Prevention Congress to Meet at St. Paul, Attended by Many Representative Citizens

"That the fire waste is increasing year by year and becoming more and more appalling within the state of Minnesota is certain," says Governor A. O. Eberhart in his proclamation setting apart Wednesday, November 8th, as Fire Prevention Day in Minnesota.

"To determine by a congress of representative men, interested in the preservation of the wealth of our state, what the loss of property has been by reason of fire, the cause therefor, and how much waste can be reduced, will contribute greatly to the advancement of this state and to the economic welfare of its people.

"The magnitude of loss of property by fire, as well as the cost of fire prevention, is not grasped by the average man. It is estimated that approximately one-half a billion of dollars is annually expended by the people of the United States for this purpose—a sum one-half as great as the annual budget of our federal govern-

ment. Nearly \$250,000,000 represents the loss by fire. A sum which would be equalled if a per capita tax of \$2.71 were collected for every man, woman and child in the United States. In no European country does the per capita loss exceed 50 cents.

"During the past 15 years computations indicate that approximately two billions of dollars and 20,000 lives have been 'sacrificed to fire.'

"Minnesota has borne too great a part of this enormous loss of property.

"The loss of timber in our state by forest fires is almost beyond computation. Property destroyed by fire is a total and absolute loss. Every indication points to an increase by fire in our state during the year 1911.

"The season of the year when fires are wont to increase in number is at hand. The heating stove of the household is again to be utilized, and the smoke therefrom must penetrate the swallow's nest before escaping.

"It is believed that more than fifty per cent of our fire loss is due to incendiarism or negligence. Much can be done for the prevention of fires by criminals, or fires caused by carelessness. Carelessness in the use of fire and lights in housekeeping is common. Carelessness in the use of matches is universal. Inflammable rubbish in factories is too often found. Dark and dirty hallways where matches are scratched and where cigar and cigarette stubs are thrown are too frequently the cause of fires. Tenants visit dark basements by

means of candles, or old fashioned oil lamps. Unsafe oil stoves are sold and employed. Oily waste is not rarely found in packing houses, factories and lumber yards. Property is not carefully watched and those things that produce fire are improperly guarded.

"It is meet that our people should be instructed and caused to realize that fire waste is impoverishing our commonwealth.

"Taking into account these vital considerations for the welfare of our state, I hereby proclaim the 8th day of November, 1911, to be known as Minnesota Fire Prevention Day, and urge that it be so recognized and observed in all the departments of the state, in all public and private institutions of learning, and by all organizations and persons interested in the social and economic uplift of our people. It is urged that the Press, as the strongest factor in the development of public sentiment, impress the importance of this movement upon our people.

"And I do further proclaim the holding of a Minnesota Fire Prevention Congress, to be held in the palm room, St. Paul hotel, in the city of St. Paul, on the 8th day of November, and earnestly invite the entire citizenship of the state to participate and co-operate in carrying out the plans of this gathering, that its purposes may be fully realized."

Every fire insurance agent of the city and community is asked to attend the meeting. Members of the Commercial club of Brainerd will at-

tend the gathering.

In addition Mayor H. P. Dunn has appointed as delegates from Brainerd Con O'Brien, Ed. Levant, W. H. Gemmell, Louis Stallman and August Hallquist.

## CASCARETS INSURE INSIDE CLEANLINESS

The Millions of Cascaret Users Never Have Headache, Constipation, Biliousness or Sick Stomach

It is more necessary that you keep your bowels, liver and stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the decomposed waste matter and poison in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing too.

## ROSS LAKE RIPPLES

The ladies of Ross Lake have postponed their annual oyster supper until they can get an oyster. The rubber one they have used heretofore has been lost. They will have to send to Duluth for another.

The dance at Peter Johnson's Saturday night was well attended. There were about fifteen couples masked and nearly as many unmasked. Everyone had a good time.

Joe Harrison, of Mud Brook, is having his house remodeled and enlarged. Frank Richter is doing the work.

While driving to the dance Saturday night, Edwin Wenzel's team ran away, throwing everyone out of the rig. Some of the ladies received slight injuries but no one was seriously hurt.

Hiram Woodson went to Aitkin on business Saturday.

Willie and Anna Peterson came down from Little Pine to attend the masquerade and visited at Keeler's Sunday.

Peter Johnson has been very busy lately, trying to finish his barn before the weather grows colder. Peter Waggoner, Sr., has been helping him.

Edith Simpson went to Aitkin one day last week.

A new heating plant has been in-

stalled in the Mud Brook school house.

## FIRE PREVENTION DAY, NOV. 8

Governor A. O. Eberhart Proclaims Wednesday as Minnesota Fire Prevention Day

## MANY DELEGATES APPOINTED

Fire Prevention Congress to Meet at St. Paul, Attended by Many Representative Citizens

"That the fire waste is increasing year by year and becoming more and more appalling within the state of Minnesota is certain," says Governor A. O. Eberhart in his proclamation setting apart Wednesday, November 8th, as Fire Prevention Day in Minnesota.

"To determine by a congress of representative men, interested in the preservation of the wealth of our state, what the loss of property has been by reason of fire, the cause therefor, and how much waste can be reduced, will contribute greatly to the advancement of this state and to the economic welfare of its people.

"The magnitude of loss of property by fire, as well as the cost of fire prevention, is not grasped by the average man. It is estimated that approximately one-half a billion of dollars is annually expended by the people of the United States for this purpose—a sum one-half as great as the annual budget of our federal government.

Nearly \$250,000,000 represents the loss by fire. A sum which would be equalled if a per capita tax of \$2.71 were collected for every man, woman and child in the United States. In no European country does the per capita loss exceed 50 cents.

"During the past 15 years computations indicate that approximately two billions of dollars and 20,000 lives have been 'sacrificed to fire.'

"Minnesota has borne too great a part of this enormous loss of property.

"The loss of timber in our state by forest fires is almost beyond computation. Property destroyed by fire is a total and absolute loss. Every indication points to an increase by fire in our state during the year 1911.

"The season of the year when fires are wont to increase in number is at hand. The heating stove of the householder is again to be utilized, and the smoke therefrom must penetrate the swallow's nest before escaping.

"It is believed that more than fifty per cent of our fire loss is due to incendiarism or negligence. Much can be done for the prevention of fires by criminals, or fires caused by carelessness. Carelessness in the use of fire and lights in housekeeping is common. Carelessness in the use of matches is universal. Inflammable rubbish in factories is too often found. Dark and dirty hallways where matches are scratched and where cigar and cigarette stubs are thrown are too frequently the cause of fires. Tenants visit dark basements by

means of candles, or old fashioned oil lamps. Unsafe oil stoves are sold and employed. Oily waste is not rarely found in packing houses, factories and lumber yards. Property is not carefully watched and those things that produce fire are improperly guarded.

"It is meet that our people should be instructed and caused to realize that fire waste is impoverishing our commonwealth.

"Taking into account these vital considerations for the welfare of our state, I hereby proclaim the 8th day of November, 1911, to be known as Minnesota Fire Prevention Day, and urge that it be so recognized and observed in all the departments of the state, in all public and private institutions of learning, and by all organizations and persons interested in the social and economic uplift of our people. It is urged that the Press, as the strongest factor in the development of public sentiment, impress the importance of this movement upon our people.

"And I do further proclaim the holding of a Minnesota Fire Prevention Congress, to be held in the palm room, St. Paul hotel, in the city of St. Paul, on the 8th day of November, and earnestly invite the entire citizenship of the state to participate and co-operate in carrying out the plans of this gathering, that its purposes may be fully realized."

Every fire insurance agent of the city and community is asked to attend the meeting. Members of the Commercial club of Brainerd will at-

tend the gathering. In addition Mayor H. P. Dunn has appointed as delegates from Brainerd Con O'Brien, Ed. Levant, W. H. Gemmell, Louis Stallman and August Hallquist.

## CASCARETS INSURE INSIDE CLEANLINESS

The Millions of Cascaret Users Never Have Headache, Constipation, Biliousness or Sick Stomach

It is more necessary that you keep your bowels, liver and stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the decomposed waste matter and poison in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing.

## ROSS LAKE RIPPLES

The ladies of Ross Lake have postponed their annual oyster supper until they can get an oyster. The rubber one they have used heretofore has been lost. They will have to send to Duluth for another.

The dance at Peter Johnson's Saturday night was well attended. There were about fifteen couples masked and nearly as many unmasked. Everyone had a good time.

Joe Harrison, of Mud Brook, is having his house remodeled and enlarged. Frank Richter is doing the work.

While driving to the dance Saturday night, Edwin Wenzel's team ran away, throwing everyone out of the rig. Some of the ladies received slight injuries but no one was seriously hurt.

Hiram Woodson went to Aitkin on business Saturday.

Willie and Anna Peterson came down from Little Pine to attend the masquerade and visited at Keeler's Sunday.

Peter Johnson has been very busy lately, trying to finish his barn before the weather grows colder. Peter Waggoner, Sr., has been helping him.

Edith Simpson went to Aitkin one day last week.

A new heating plant has been in-

stalled in the Mud Brook school house.

Minneapolis & St. Louis Railway Officials Pass Through Brainerd in an Automobile

## LOOKING OVER PROPOSED ROUTE

Their Road Planned to Go Through Brainerd, Connecting With the Canadian Northern

W. G. Bried, general manager, and G. G. Kemley, chief engineer of the Minneapolis & St. Louis railway, passed through Brainerd looking over proposed route for a railroad to pass through Brainerd from Minneapolis and connecting with the Canadian Northern.

Their route from Minneapolis lay through Princeton, Brainerd, Bagley, Chief River Falls and through Roseau county, by way of Bemwood and Wauaska.

Mr. Bried was interviewed at Roseau and talked freely of the country they had passed through, and said that he found the general character of the land in the northern part of the state as good as could be found anywhere.

The presence in the city last week of Sir Alexander D. McKee, of Vancouver, British Columbia, his examination of the country near Brainerd and his subsequent trip to Minneapolis, gives credence to the story that he may be investigating the condition of the country with the probable idea of planning a railway extension. Sir Alexander is a man who does things and his record in the past is ample evidence of the fact that he can plan and carry to completion great enterprises. For his success in settling the large land grants of the Canadian Northern in western Canada and peopling the land with the best class of American, Scotch and English farmers, Sir Alexander was knighted, King George appreciating the worth of such an empire builder.

State is Marshaling its Forces and Enters the Case Confident of Proving Charges Made

S. F. Fullerton, assistant state fire marshal of St. Paul, was in Brainerd for a short time between trains, having come from Bemidji and leaving in the afternoon for St. Paul.

The state is marshaling its witnesses, of whom there will be at least twenty. All possible evidence is being secured in the north country and when the trial opens on December 6 the state will be fully prepared to present its side of the case.

This second charge against Dr. Dumas, of aiding and abetting the setting on fire of a building at Blackduck, is a most serious matter and interest is daily growing in the case which will attract state wide notice.

Mr. Fullerton was very reticent about the case, but intimated that at the proper time the state would spring a series of revelations which would tend to implicate others in the arson case.

**The First Music.**  
The father of song, music and dancing, all three, was the savage who first clapped hands and shouted in time at some rude festival of his tribe. From that clapping and shouting has been evolved the whole art of instrumental music, including even the entrancing complexities of the modern symphony. From that shout or rudimentary emotional utterance has proceeded by a kindred evolution the whole art of vocal music down to the modern opera or oratorio. From the savage leap has come every variety of dancing, from the country breakdown to the beautiful waltzes of the city ballroom.—New York American.

**CHILDREN INJURED.**  
**Ordinary Cathartics and Pills and Harsh Physic Cause Distressing Complaints.**  
You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given, except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They may cause griping, nausea and other distressing after-effects that are frequently health-destroying.

We personally recommend and guarantee **REXALL** Orderlies as the safest and most dependable remedy, which we know, for constipation and associate bowel disorders. We have such absolute faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge it in need of such medicine to try it at our risk.

**REXALL** Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

**REXALL** Orderlies commonly completely relieve constipation, except of course when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. Three sizes of packages, 10 cents, 25 cents, and 50 cents. Remember, you can obtain **REXALL** Remedies only at our store—The **REXALL** Store. Johnson's Pharmacy, 222 7th St. S.

**CALUMET**  
**BAKING POWDER**

That's the way to talk when the grocer tries to sell you some other kind. Insist on Calumet and make him give it to you. Then you'll always be sure that there'll be no failure to waste time and materials—that every time you put a baking into the oven it will come out light as down, dainty, pure and uniformly raised.

For Calumet is wonderful in its leavening powers, in its uniformity, in its purity—and best of all in its unfailing results.

For your own satisfaction, test Calumet. Compare it with every other kind in the one test that tells—baking, and see how much better Calumet makes the baking. The test will prove Calumet's superiority most conclusively—and show you, too, how much more economical this wonderful baking powder is.
